Plywood Sheets: 126					

2016 Special Needs & Transportation Only

Registration as of July 2016

Chapter 252 of Florida Statute states that the county office of Emergency Management “shall maintain a registry of people with special medical needs. The registration form identifies those people within the county in need of assistance and relocation pre- and post-disaster.” Each year a new database is created to ensure accuracy of patient information and valid statistics. Persons with special medical needs are transported or directed to special needs shelters. Persons with transportation needs only are taken to dual population shelters. So far this year, the Emergency Preparedness Division has registered 620 residents in the special needs database. This database is updated daily to include new registrants and to note any changes in residents’ medical conditions. The breakdown of transportation needs for those registered in the database are reflected in the chart below.

Special Medical Needs Transportation

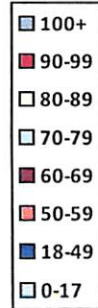

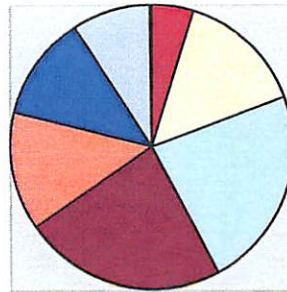

Ambulance transport:	15
JTA Special Needs/Bus transport:	419
Has own transport:	186

Total Special Needs registrants: 620

Total Transportation Needed Only registrants: 446

TERMS AND DEFINITIONS

SPECIAL MEDICAL NEEDS CLIENT:

- ♦ Any person medically dependent on electricity (i.e. for life supporting equipment).
- ♦ Any person regularly requiring observation (as in Dementia) or assistance with medications.
- ♦ Any person with a chronic condition that requires assistance.
- ♦ Any person with a contagious health condition that requires minimal precautions or isolation.

TRANSPORTATION ONLY:

- ♦ Any person with a medical condition not quite at the Special Needs level who registers for Special Needs. These persons are transported to a dual population shelter for monitoring.
- ♦ Any person requesting transportation to a general population shelter who is unable to walk to their nearest bus station.

GENERAL POPULATION SHELTERS:

- ♦ General Population Shelters are open to the public on a first come, first served basis. There is very little privacy in a shelter and it may be crowded.
- ♦ General Population Shelters are located in public schools or other safe structures and are managed by the American Red Cross. Total General Population Shelters: 16

PET FRIENDLY SHELTERS:

- ♦ Pet-Friendly Shelters provide emergency sheltering to people and their pets. With the exception of service animals, no pets will be allowed in the area housing people at any time.
- ♦ Pets will be sheltered in an area separate from their owners. Owners are required to care for their pets just as they would if they were at home.
- ♦ The Animal Care and Protections Services Division will be on site to register pets. Total Pet Friendly Shelters: 3

SPECIAL MEDICAL NEEDS SHELTERS:

- ♦ Located in public schools or other safe structures and staffed by the Florida Department of Health in Duval (DOH-Duval) and have medical staff on hand to provide emergency medical assistance, if needed.
- ♦ Special Needs Shelters have back-up electrical generators to power lights and electrical outlets for medical equipment. Total Dedicated Special Needs Shelters: 2

DUAL POPULATION SHELTER:

- ♦ Shelters housing both the general population and special medical needs registrants.
- ♦ Total Dual Population Shelters: 7
