## **OFFICE OF THE CITY COUNCIL**

July 21, 2017  
3:00 p.m.

### **MEMORANDUM**

**TO:** Honorable Members of the City Council

**FROM:** Council President Anna Lopez Brosche  
At-Large Group 1

**RE:** Special Committee on Parks

---

In accordance with Council Rule 2.103(a), as President of the Jacksonville City Council  
I hereby appoint a Special Committee on Parks.

**BACKGROUND:** Jacksonville has one of the largest park systems of any city in the nation, in part because it is a consolidated city/county government serving the city with the largest land mass of any city in the continental United States, and because the city has consciously acquired substantial tracts of land for the purposes of preservation and prevention of rampant development. While very large, diverse and popular, that park system is not generally regarded as one of the best in the nation. The Trust for Public Land recently ranked Jacksonville's park system as the 90<sup>th</sup> best among the 100 largest cities in the country based on a combination of factors including size of the park system, per capita city spending on parks, percentage of the city's population living within easy walking distance of a park, and the amount and diversity of park facilities.

**CHARGE:** Perform a community-wide assessment of parks for access, maintenance, and more robust integration of our parks system in youth development and youth engagement. Determine what measures should be used to determine the quality of parks. Commission an inventory of the quality, existing facilities, needed facilities, maintenance needs, location and sufficiency of all city active and passive parks and make recommendations about how are parks should be improved to be more of an asset to the community in the areas of youth development and youth engagement.

## REGIONAL PARKS - Amenities Comparison AUG 2017
