

1 **JACKSONVILLE WATERWAYS COMMISSION RESOLUTION**

2 A RESOLUTION ENCOURAGING THE APPROPRIATION OF
3 APPROXIMATELY \$30,000, OR ADDITIONAL FUNDS AS
4 NEEDED, FROM THE BOATER IMPROVEMENT TRUST FUND
5 TO COMPLETE THE REPAIR AND ENHANCEMENT OF THE
6 HOOD LANDING BOAT RAMP AND RELATED FACILITIES.

7
8 **WHEREAS,** the City of Jacksonville has appropriated funding
9 and completed certain improvements to the Hood Landing Boat Ramp
10 known as Phase I Repairs, consisting of removal and replacement of
11 the floating dock; and

12 **WHEREAS,** during the deliberation process for the Florida
13 Inland Navigation District (FIND) project list for the upcoming
14 2018/2019 fiscal year, the Parks, Recreation and Community Services
15 Department had proposed a project for improvements to Hood Landing
16 including floating dock replacement, construction of the East Pier,
17 repairs to the boat ramp, and lighting and parking lot upgrades
18 estimated at \$400,000, and the members of the Waterways Commission
19 FIND subcommittee advised the Administration that they would prefer
20 for the Phase II improvements to not be included in the 2018/2019
21 FIND list but instead have dedicated funding from the Florida
22 Boater Improvement Funds sources so that the Phase II Repairs could
23 be completed sooner than would be done as a FIND project; and

24 **WHEREAS,** the second phase of improvements would consist of
25 construction of the East Pier and repairs to the ramp (Phase II
26 Repairs) and is anticipated to cost around \$28,000.50; and

27 **WHEREAS,** the Phase II Repairs and other elements of the
28 original project scope have not yet been funded by the City of
29 Jacksonville; and
