Connecting McCoys to Brooklyn

Project Portfolio

Park Street | Forest to Stonewall

FY 18-19:
\$2,200,000

Description: This project provides modifications to existing roadway infrastructure within the Brooklyn Neighborhood to enhance pedestrian and bicycle connectivity and improve vehicular safety. Improvements include adding a cycle track (2-way bicycle traffic), on street parking, expanded sidewalk areas, reduced roadway widths for safer pedestrian crossings and the addition of street trees.

Justification: The design intent for Park Street will provide a more multi-modal street within the urban core linking the Regional Transportation Center with the Five Points and Riverside neighborhoods. Enhanced pedestrian experiences will also promote economic development along the corridor.

Useful Life: 20 years

PICNIC AREA FOR GROUPS
Wall surround becomes
story board

St. Johns River Park and Friendship Fountain

- Fountain Project **proceeding under Design Build** continuing contract (18-19: \$1,300,000 additional funding; 19-20: \$1,200,000 to complete all elements)
- Bartram Garden and picnic area **in design** by Parks to be complete in November (funding from 17-18)
- Ribault Discovery Playland, splash pad, restrooms and concession; Pump house mural and venue- **in preliminary design and scoping**; 18-19: \$900,000 design and partial construction; 19-20: \$1,600,000 (construction balance)

Southbank Docks/Ramps

St. Johns River Marina- Design for deepening ramp nearing completion; 19-20: \$500,000 for construction

School Board Kayak Launch- design 90%, permits received

Riverplace Finger Pier – Permits in process, due now; ready to bid

The District- Marina permits approved, construction to proceed with development- public access and taxi landing included

Northbank Riverwalk

**TODAY OUR RIVERWALK IS FUNCTIONAL
BUT COLD AND STERILE**

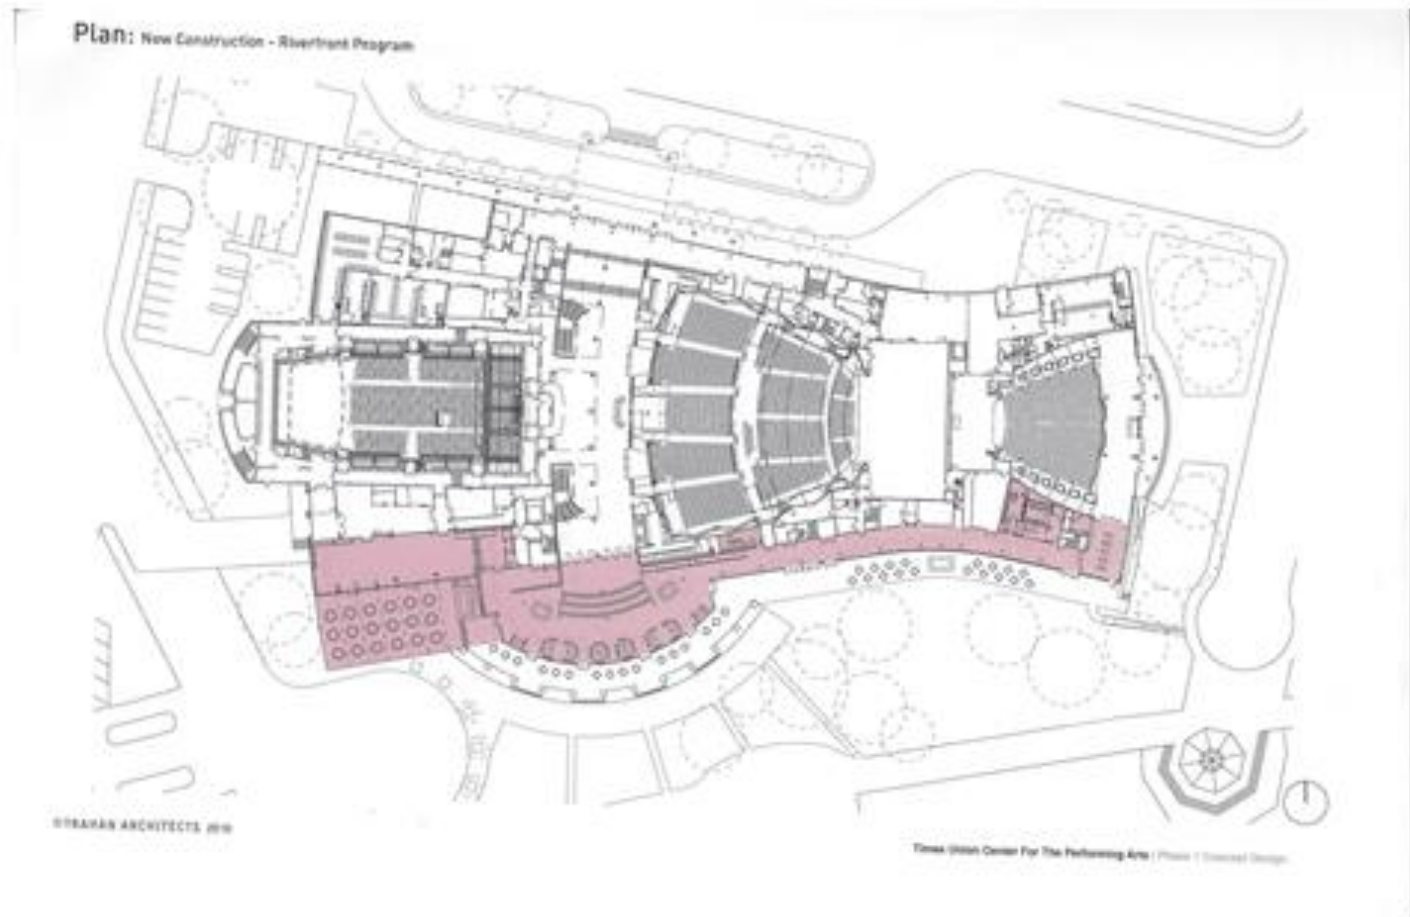

Landscape and Wayfinding Signage is a first step

Northbank Riverwalk

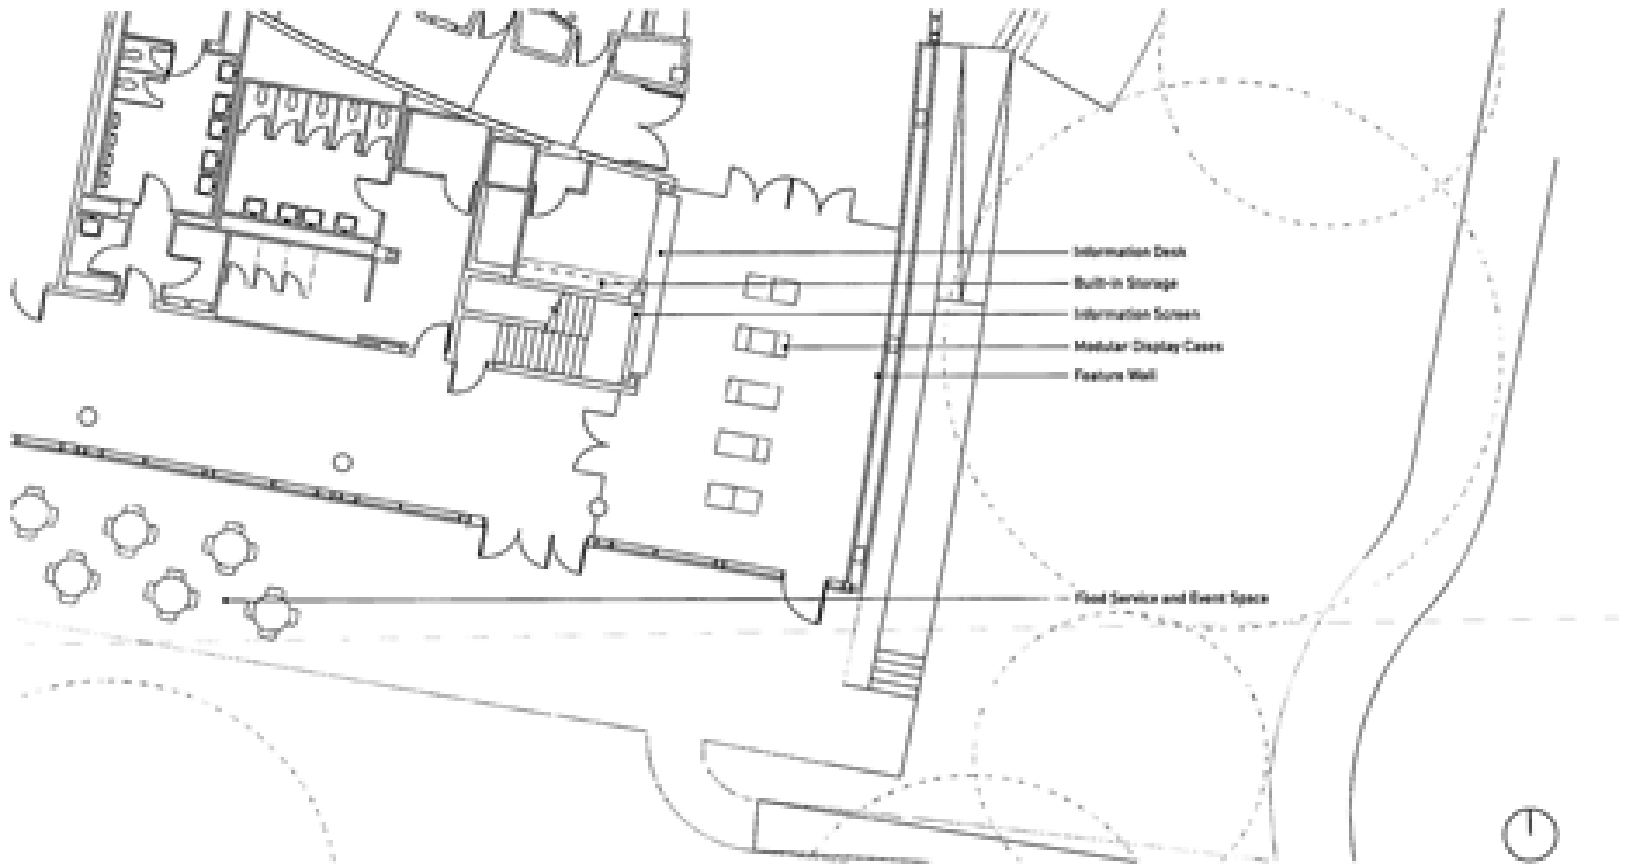

- **Bulkhead replacement** from Hogan to Pearl behind Performing Arts Center **in design; fully funded for construction 18-19** (3,700,000)
- **Riverwalk Wayfaring signage** in design/construction to be installed by spring 2019
- **Riverwalk Landscape enhancement** new standards to be filed as legislation in December; installation using tree fund in Spring 2019

Northbank Riverwalk Downtown Visitor Center

Northbank Riverwalk Downtown Visitor Center

Plan: Visitors Center/Gift Shop

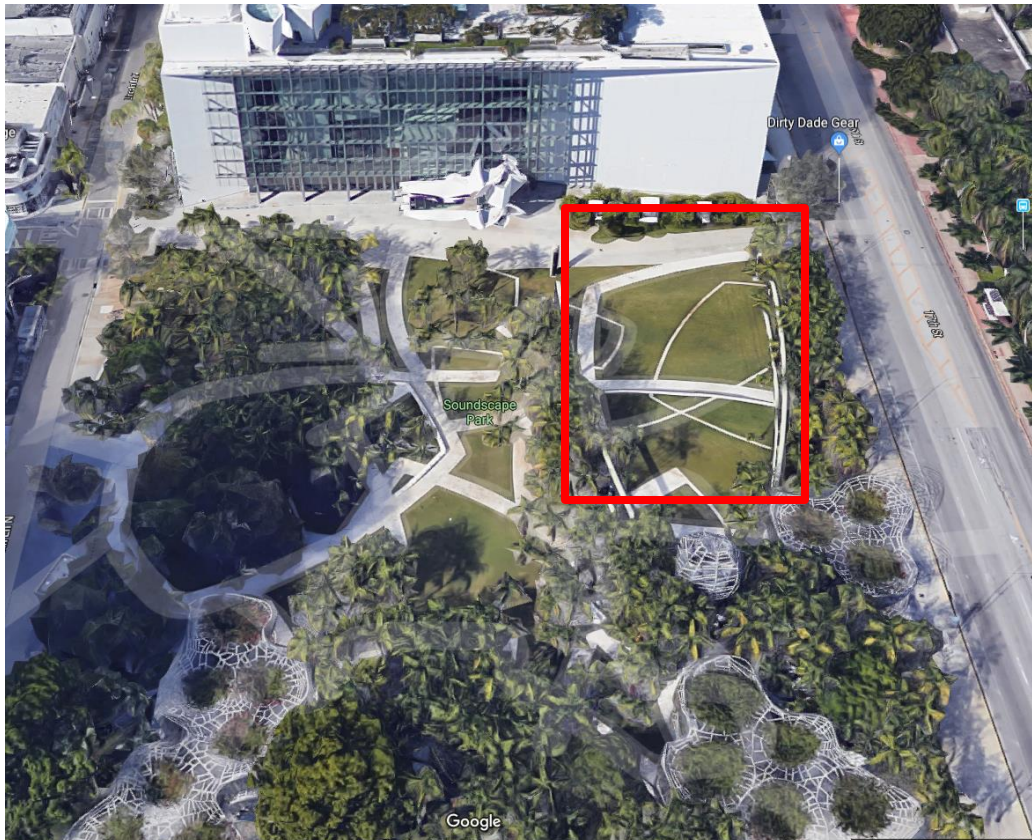

Wallcast Outdoor Venue

for Livestream and Cinema
modeled after Soundscape Park
in Miami Beach

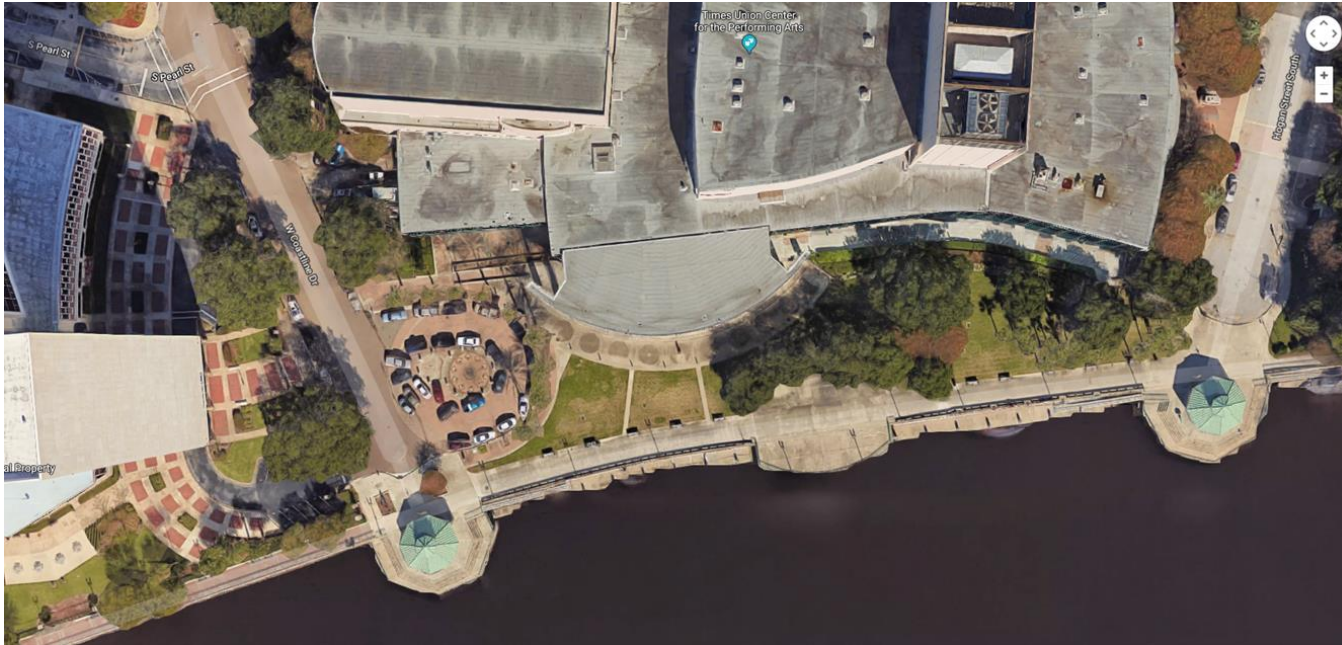

Livestream of New World
Symphony, theatrical
performances, and
projected movies

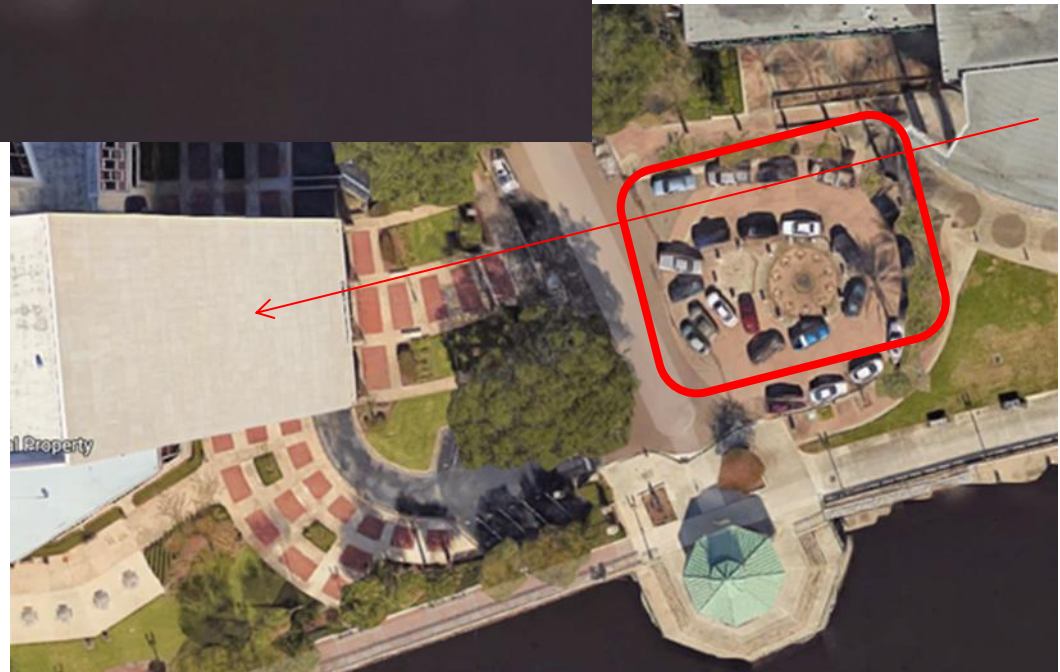

Space on
projection
wall and
lawn seating
comparable
in size to our
opportunity

Performing Arts Garden

Similar space for seating, distances using CSX wall as projection surface

Lawn seating very informal, unstructured

Projection from rear of seating lawn

Speakers create ring around edges of seating lawn

Future Phases of Attraction include **nightly synchronized Light/Sound** show using Friendship Fountain and the St. Johns River Park ; the Performing Arts Garden and building facades; and eventually the Main Street and Acosta Bridges

- Miller Electric, TLC and The Moment Factory **currently engaged to develop concept of show, cost estimates and hardware/software specs as well as operating cost estimates (to be complete by year end)**
