Subject: Bill 2020-042 Request to Support on the Addendum as an Emergency
Attachments: 2020-042 05 Original Bill.pdf; 2020-042 06 Exhibit 1.pdf

Council Members,

Council President Wilson approved my request to put Resolution **2020-042** on the **Addendum as an Emergency** to be brought before you for this evening's meeting.

This Bill is a Resolution in regards to JEA and for City Council to approve the request to JEA to Rescind, Cancel, Renegotiate and/or Terminate the "Golden Parachute Benefits", provided to Management and Employees by pay and Customers by rebates, at JEA's earliest convenience. Previous actions of the JEA Strategic Planning process and ITN provided benefits to these groups upon the result of a recapitalization event, which amounted to over half a billion dollars and public perception that these groups were being manipulated to support such action.

It is my contention that these benefits, while still active, will continue to provide an obstacle to the citizens of Jacksonville in having or hearing any presentation now or in the future. The request for an Emergency is to provide this Resolution to the JEA Board prior to their upcoming January Board meeting and to take immediate action that will help restore that public trust by removing the perception that these Golden Parachute Benefits distort a thorough, impartial and objective discussion regarding the future of JEA.

I hope you will consider supporting this Bill on the Addendum as an Emergency so that this directive can be communicated to JEA and the JEA Board as soon as possible.

Thank you in advance for consideration of this request,

Danny

p.s. It would be an honor to have you support this resolution as a Co-Sponsor.
