Subject: JEA Bid Chart
Attachments: BID Amounts Redacted Jan 2020.xlsx

Dear Council Member,

In my continuing effort to ensure the transparency of all JEA ITN documents, I have been working on the release of the actual bid amounts. In my opinion, these amounts are clearly a public record, but some of the Respondents (bidders) are asserting that the final numbers are “confidential”. OGC has given them until 2/20/20 to legally substantiate their claims. I think the date should be much shorter as it is such a simple issue.

In any event, I am attaching the latest chart which illustrates the bid amounts from the companies that are not claiming that this information is confidential. I will add to the chart as companies comply with Florida Public Records law. I do have the complete chart with all of the numbers, but I am coordinating with OGC as to which ones can be currently released.

Best,

Carla Miller
Ethics Director
