* NOTE: Constraints considered are the Florida Constitution, the Florida Public Service Commission jurisdiction, intellectual property (IP) considerations, the City of Jacksonville Charter, JEA's Bond Resolutions, JEA's business structure, and policy considerations. The cumulative impact analysis assumes current law, is based on general and not specific initiative terms, and is subject to confirmation and change by legal counsel. It is not possible to analyze the universe of policies, laws, and regulations that may impact the development, adoption, funding, and implementation of a proposal at this point in the discussion. Any specific initiative will require extensive and detailed legal analysis and counsel.
