Completed Projects (since FY 18/19 to June 2022)

- **Engineering**

- ***Roadway Improvements***

- Lenox Ave Sidewalk (from Old Middleburg Rd to Memorial Park Blvd)
- Broadway Avenue Guardrail Repairs – This project includes endwall fortification and guardrail replacement.
- Bridge 724360 on Trout River Blvd Maintenance – This project includes guardrail repair and bridge cleanup and sidewalk maintenance.
- Trout River Blvd and Sibbald Guardrail Repairs – This project repairs the guardrailing damaged at the intersection of Trout River Blvd and Sibbald Avenue.
- Gateway Soutel Norfolk Project
- Sibbald Road Sidewalk (Archery Ave to Soutel Dr)
- Ken Knight Dr – speed humps and additional street lighting
- Moncrief/Dinsmore Rd Bridge Replacement
- Hyde Grove Avenue Pedestrian Bridge – Old wooden planking and hand railing was removed and replaced with new, and the rest was pressure washed.
- Grace Lane Bridge Maintenance – Deck and concrete railing cleaning, joint sealing, vegetation removal, guardrail repairs.
- Pickettville Road Guardrail Repairs
- Pickettville Road Bridge Guardrail Safety Upgrade – Removed old guardrail and replaced with new meeting current standards, deck and concrete railing cleaning, joint sealing, vegetation removal.
- Old Kings Road Bridge Guardrail Safety Upgrade - Removed old guardrail and replaced with new meeting current standards, deck and concrete railing cleaning, joint sealing, vegetation removal.

- **Mowing & Landscape**

- ***Tree Planting Projects***

- ✍ 630-CITY Level 1 Tree Planting – 218 residential requested trees in city right of ways – In Progress
- ✍ Tree Replacement Program - 55 dead/dying trees removed and replaced - In Progress

- **Solid Waste**

- ***Ash Remediation***

- Gold Merit/Pope Place – The City awarded the project on 9/1/2022 and the City will issue the Notice to Proceed in approximately two weeks. Expected completion time is 8-10 months.
- Hema Rd – Based on the recently collected samples, additional step outs to determine the horizontal extent are required. The vendor is currently conducting field work to collect these samples. Estimated completion time is 9/16/2022 with 2 weeks for receipt of the laboratory test results. Additional field work may be required based on testing results.
- Lonnie Miller - The City will be submitting the new RFP design build package on 9/12/2022 for advertisement.

- **Public Buildings**

- Legends Center – HVAC major repair and IAQ work completed.
 - Legends Center – Generator repair completed.

- 7517 Old Kings Road (Ditch Lining – eliminate erosion) – We received the additional geotech report and are now moving forward with the plan set for these repairs.
- 2800 West Side Blvd (drainage system repair) – Collecting field data.
- 2918 Davell Road (property flooding) – Preparing 30% Plans. Collecting additional field data.

Projects South of I-10:

- 3710 Frye Avenue West (Outfall Improvements – eliminate adverse impacts to adjacent private property) – Preparing 30% Plans.
- Harlow Blvd./Mother Hubbard Dr. S. (Ditch bank restoration) – We received the additional geotech report and are now moving forward with the plan set for these repairs.
- Sibbald Sidewalk Extension (Archery to Trout River Blvd.) – 90% Design phase is ongoing. Submittal expected in October 2022.
- **FY 22/23** Funding (October '22) **FUTURE**
 - Sidewalk Repairs (20 Locations)
 - Upper Cedar River Drainage Improvements Phase I (Channel Lining west of Lane Ave. – I-10 to Ramona Blvd.)

- **2021-186-E Legislation**

- Soutel Drive & New Kings Road Intersection Improvements (Dual Left Turn Lanes (Westbound & Southbound), widen Northeast Leg, Improve Signal & adjust Drainage System) – [Preparing 30% Plans.](#)
- Drainage System Rehabilitation

Projects North of I-10:

- 6810 Old Kings Rd. @ Dixie St. (property flooding) – [Project is currently being designed and plans prepared.](#)
- 5170 Cain Lane & Able St. Ph. I & Ph. II (property flooding) – To resolve the drainage issue on Cain Lane and Able Lane, Engineering is working with the City's RWSM to clear away some vegetation at the outlet adjacent to Doolittle Road. Once complete, Engineering will evaluate the existing storm pipe system, and develop a project to further clean and repair the existing pipe system upstream on Cain and Able Lane. [To resolve the drainage issue on Cain Lane and Able Lane, Engineering is working with the City's RWSM to clear away some vegetation at the outlet adjacent to Doolittle Road. Once complete, Engineering will evaluate the existing storm pipe system, and develop a project to further clean and repair the existing pipe system upstream on Cain and Able Lane. Coordinating with FDOT, possible FDOT permit may be needed.](#)

Projects South of I-10:

- none
- [FY 21/22 Funding](#) (October '21)
- Drainage System Rehabilitation

Projects North of I-10:

- 6542 Zora Street Drainage (property flooding) – [See above Old Kings at Dixie for scope of work.](#)
- 500 Ellis Road (Culvert System replacement) – [The 90% Plans were submitted by the Consultant on April 1. The City provided comments on April 18. The Consultant is now performing SUE work and moving towards final plans.](#)

- ***Septic Tank Phase Out – Biltmore***

- Phase 1 – all ROW construction complete including paving. Household hook-ups complete.
- Phase 2 – all ROW construction complete including paving. Household hook-ups complete.
- Phase 3 – all ROW construction complete including paving. Household hook-ups 70% complete.
- Updates can be located at www.jea.com/biltmore/

○ ***Roadway Improvements***

- 5th Street Bridge Replacement (West of Edgewood, next to JEA Lift Station) – This project replaces the existing 5th Street Bridge. The 60% Design was submitted to the City in mid-November 2020. Final plans and specifications are expected to be completed in Winter 2023. Funding for construction is scheduled in FY22/23.
- Ricker Rd (3-lane section Morse Ave to Old Middleburg Rd) – Consultant working to submit 60% plans by the end of September.
- Wills Branch Dredge – dredging Wills Branch between Old Middleburg Road to 2,200 feet east of Lane Avenue. This project was advertised for construction in May of 2022. The bids were opened on June 1st 2022 with only one bid participating. The amount of the bid was more than the budget available. All bids were rejected. Additional funding is being provided on Oct. 1st 2022. The RFP has been submitted to Procurement for review and issuance of a bid date and RFP number.
- US 1 Utility Corridor Improvements Phase 2 – Design contract for Phase 2 is now fully executed. Consultant has received the as-built drawings from Phase 1 of this project and is working on revising the previously prepared plans and specifications.
- Commonwealth Ave / Pickettville Rd Intersection – 60% plan delivery is expected at the end of September.
- Firestone Rd / Wheat Rd Intersection Improvements – Consultant made 2nd submittal; plans are currently in 10 set review and being reviewed by Traffic Engineering Division.
